

# Women's and feminist funds are the backbone of feminist resourcing.

They are the main source of support for feminist and women's rights movements worldwide – **providing 55%\* of all funding, more than any other type of funder!**

And yet, they remain critically underfunded.

It's time to change that.

Feminist funds **meet**  
**the urgent needs** of  
communities and  
movements defending  
life.
